

CHAPTER V

CONCLUSSION AND SUGGESTIONS

Considering the data analysis in the previous chapter, the writer makes some conclusion as in the following:

5.1 Conclusion

From the findings as discussed and described in the previous chapter, the writer would like to take some conclusion:

1. There are many metaphors in Lio language. In this study, it was found twelve metaphors. Metaphors are used of words to show something different from the literal meaning, (Hornby, 1989: 227). They are needed in everyday communication.
2. Metaphors in Lio language, are not only means by literal language but that is actually part of our everyday communication.

5.2 Suggestion

The suggestions that the writer presents here go in line with the significance of the study and the result of the data analysis. The suggestions would be offered to many persons, both as a personal or institution in accordance with their role, responsibility, capacity, and capability.

1. The experts of linguistics and other related subjects are suggested to do continued study or similar study to confirm and extend the linguistics evidence in Lio language or other local languages.

2. The linguistic researchers are suggested to do a continued research on the Lio language especially conventional metaphors or a metaphor that is commonly used in everyday language.
