

CHAPTER V

CONCLUSION AND SUGGESTIONS

In this chapter, the writer presents conclusions and suggestions of the study

5.1 Conclusion

Based on the result of the data analysis, the writer comes to the conclusion. The result of data analysis indicates that (1) The students of SMPN 16 Kupang are able to understand the text they read, and their levels of ability are as follows: two students (10%) got very good level ranging from 8.6 – 9.5. Four students (20%) got good level ability ranging from 7.6 – 8.5. Seven students (35%) got fairly good level ability ranging from 6.6 – 7.5. One students (5%) got average level ability ranging from 5.6 – 6.5. Three students (15%) got low level of ability ranging from 3.6 – 4.5. One student (5%) got very low level of ability ranging from 2.6 – 3.5. Two students (10%) got bad level of ability ranging from 1.6 – 2.5. (2) The ability level of the whole students are Average

5.2 Suggestions

Based on the conclusions above, the writer would like to suggest the following things.

1. For the English Teacher

The English teacher should give more explanations about English reading text.

The students should be asked to do the exercises and give more vocabularies to help them comprehend reading text.

2. For the students

The writer suggests that in comprehending English reading text the students have to study more and learn vocabulary.
