

## CHAPTER V

### CONCLUSION AND SUGGESTIONS

In this chapter, the writer presents the conclusion and suggestion of the study. The conclusion is done based on the data analysis in chapter IV, which is in line with the problem statement. The suggestion is done based on the conclusion which is achieved from the result of the analysis and discussion. The conclusion and suggestion presented below.

#### 5.1 Conclusion

Based on the result of the data analysis, the writer comes to the conclusions as presented below.

1. The seventh-grade students of SMP Negeri 5 Kupangin the school year 2019/2020 can know the meaning of ability tested to them.
2. The ability level of the seventh-grade students of SMP Negeri 5 Kupang in the school year 2019/2020 in using possessive adjectives is **6.05 classified as good.**

#### 5.2 Suggestion

Based on the conclusions above, the writer would like to suggest the following things.

1. To the Writer

The writer as a teacher in the future wants to students to study hard about English grammar in using a possessive adjective and to try to get way of how to solve student's problems in improving their grammar in using a possessive adjective.

2. To English Teacher

The result of the data analysis and the suggestion can give a valuable contribution to the teacher of English about the ability of students in using possessive adjectives. They can improve their method of teaching English especially grammar in using a possessive adjective and then teachers can make new strategies that make students improve their English especially grammar in using a possessive adjective.

#### 1. To Students

Based on the result of the study, they can be motivated to study more English grammar, especially in using a possessive adjective. They can try to practice exercises in English grammar especially in using a possessive adjective.

### 5.3 Recommendation for Further Studies

This study was limited as it only used one question type i.e multiple choices therefore, the writer recommended for other future studies to conduct the research by using diverse types of questions such as combination of multiple choice and essay in order to measure students' understanding on possessive adjectives. Besides, the research participants in this study were limited that result in the inability to generalize the research sample; therefore, the future studies are suggested to more research so that they chooses more participants so that the data can be analyzed in large scale. In addition, it is suggested to other research to use a good time to get valid.
