

## CHAPTER V

### CONCLUSION AND SUGGESTION

In this chapter, the writer presents the conclusion and suggestion of the study.

#### 5.1 Conclusion

After analyzing and discussing the data, the writer draw some conclusions as presented bellow:

1. The eighth grade students of SMPN 1 Kefamenanu in the school year of 2014/2015 particularly those who are from VIII –B class are not fully able to predict the information from the pictures on reading text.
2. From the 28 students as the sample, only 2 (7,14%) students got excellent, 4 (14,28%) students got very good, 4 (14,28%) got fairly good, 3 (10,71%) students got average and others 15 (53,57%) got bellow average, poor and very poor. Therefore, it can be said that the ability level of the eighth grade students of SMPN 1 Kefamenanu in the school year 2014/2015 in predicting information from the pictures is **Average (60.3%)**

#### 5.2. Suggestion

There are some suggestions given by the writer in this study stated in the following:

1. For the Teacher

This study might inform the English teacher at SMPN 1 Kefamenanu about the ability of the eighth grade students in predicting information from the pictures on reading text. Therefore the teacher should find out another way or technique in using pictures like as colour pictures, series pictures and video pictures in improving the students reading comprehension ability.

2. For the Students

The students should spend more time to study English books and other sources to improve their competence in predicting information from the pictures on reading text.
