

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the writer would like to present the conclusion of this study and offers some suggestion.

5.1 Conclusions

Based on the results of data analysis, it can be concluded that:

1. The use of audio media is effective in teaching speaking to the tenth grade students of SMAN 6 Kupang in the school year 2014/2015. It is indicates by the improving of the average score in post-test 1 and in the post-test 2.
2. In the post-test 1, the average score is 3.19. It is classified as advance ability level. And in the post-test 2, the average score is 5.16. it is classified as high advance ability level.

5. 2 Suggestions

Based on classroom action research that has been done, the writer would like to offer some suggestions as stated in the following lines.

1. For English Teacher

The English teacher can continue and developing teaching media with audio media in learning process.

2. For the Students

The students can improve their speaking ability outside the class by using the audio media such as listening to the music, radio or movies.

3. For Other Researcher

For Researcher can develop research in innovative and comprehensive to over come limitations experienced researcher for research.
